

Technical drawing of a lighting fixture assembly. The drawing shows a side view of the fixture, which consists of a main body and a series of hanging lights. The dimensions are as follows:

- Overall height from the top of the main body to the bottom of the hanging lights: 6.80 cm.
- Width of the main body: 0.70 cm.
- Height of the main body: 1.60 cm.
- Height of the hanging lights: 0.40 cm.
- Height of the hanging lights from the bottom of the main body: 0.60 cm.
- Height of the hanging lights from the bottom of the main body: 3.50 cm.
- Height of the hanging lights from the bottom of the main body: 0.80 cm.

Diagram illustrating a mechanical testing apparatus for a polymer specimen. The specimen is a vertical bar with a central circular hole, suspended between two horizontal supports. The distance between the supports is 1.20 cm. The specimen has a diameter of 0.70 cm. The distance from the top support to the center of the specimen is 0.80 cm. The distance from the center of the specimen to the bottom support is 4.00 cm. The specimen is supported by a central vertical rod and a spring mechanism.
